

The Lindner Suisse core competencies

- Production and distribution of special wood wool articles
- Production and distribution of filling material chips
- Distribution of packaging material and packaging aids

Lindner Suisse offers you

- high-quality, functional products
- individual, sustainable and economical solutions
- fair conditions
- experienced staff at your service

We will be happy to advise you on the most economical solutions for packaging materials and quality wood wool.

After all: Quality inspires confidence.

The Lindner packaging range

Lindner Suisse would like to present itself

Lindner Suisse produces high-quality wood wool special items and packaging chips at the company location in Toggenburg.

We also offer a needs-based range of stretch films, bubble wrap, PE foam films, adhesive tapes, wet adhesive tapes, document pouches, sealing clips, pallet securing and much more.

When distributing packing aids too, we go for forward-looking climate-friendly products and partners with the same ideals and goals. As a packaging specialist, we only sell what we, as manufacturers, also use ourselves.

History

- 1920 Start of production of Lindner Suisse wood wool
- 1979 Lindner Suisse begins production of packaging chips
- 1996 Expansion of the trade range
- 2012 - Continuous expansion of an ecological packaging range and new developments in the wood wool and packaging sector

The Lindner Suisse packaging range

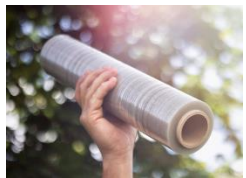

spediline wood wool

Swiss wood wool, the classic for packaging. Thanks to their high quality and increased ecological awareness, the spediline classic, extra, light and food lines are more in demand than ever before. Spediline food is officially tested and approved for direct contact with food.

Packaging chips

Swiss made! Caristar, Winpack and S-Pack are made of 99,6% air and 0,4% recycled polystyrene. They are optimally shaped, shock-absorbent, pourable, CFC-free and antistatic.

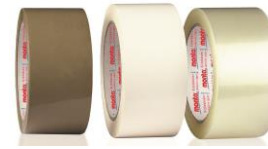

Stretch films

Whether you need economical machine, hand or bundled stretch films, you can choose from a range of over 70 high-quality films. The perfect film for your needs is also available with print.

Air bubble- / PE foam films

Bubble films protect and provide ideal cushioning. They are available on rolls, as a tube, bag or cut to size. The soft, flexible and elastic PE foam films are available in standard rolls or as a customised product to suit your dimensional and design requirements.

Adhesive tapes

A wide product range of high-quality self-adhesive packaging tapes with different backing materials and adhesive systems protects your goods and saves costs. Printed adhesive tapes establish your brand and promote your image. It is a small yet worthwhile investment that attracts attention on a daily basis.

Document pouches

Swiss post-compliant, self-adhesive document pouches in a variety of standard sizes save a considerable amount of time in the shipping department. Customised printing ensures an unmistakable, attractive appearance.

WeLoc® sealing clips

There are around 50 models in numerous colours and shapes for sealing a wide variety of packaging. They can also be printed individually. WeLoc® complies with FDA regulations and other international requirements for products in the food sector.

Auxiliary packaging material:

Replacement handles, sliding sleeves, dispensers, box closers, filling devices – we have it all covered, just ask!
